

BELIEVE WHAT THEY'VE SEEN

BADGED UP

THERE'S no mistaking this car, as the HDT legend remains firmly in sight with no fewer than 26 logos emblazoned on the latest car mods including the grille, seats, door sills, front bumper and rear wing section

What do you get?

'RETRO One' is based on the first of the great HDT cars, the VC, and features some pretty cool tweaking motor-wise as well as the extensive body modifications and multitude of HDT badging. There are three packages available, pegged at \$15,000, \$25,000 and \$40,000, known as Group I, II and III in a nod to the original Brock road cars.
