

Marlboro Holden Dealer Team, in conjunction with HDT Special Vehicles, provide a specialised car service unique in Australia. With full approval from GMH, HDT converts base Commodores into a variety of "HDT Improved" versions, as requested by MHDT backing Holden Dealers.

All improvements to styling, engine, fuel saving aids, suspension, brakes etc. have been developed thoroughly through the race team and the special expertise of HDT automotive designers and engineers, prior to implementation into road cars. In fact, there's a little bit of Bathurst in every car they build.

Before delivery to dealer or customer, each car is individually checked and tested by race drivers Peter Brock, John Harvey or Phil Brock. Ask your Holden Dealer for details on current Commodore option packs and applicable prices.

HDT IMPROVED
